

# Your advantages

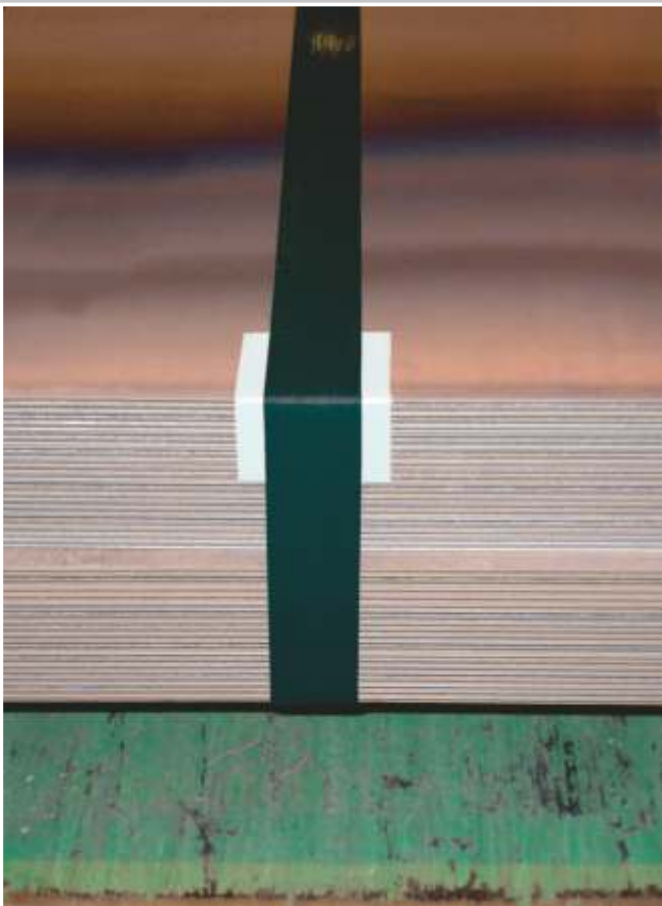

STARstrap™-plus - available in widths from 15,5 mm up to 32 mm - strap has very low tendency to split, very high sealing strength and tough edge rigidity.

STARstrap™-plus - especially suitable for heavy applications.

STARstrap™-plus - alternative to steel strapping with same security features - important cost savings can be achieved.

STARstrap™-plus - particularly suitable for automatic strapping machines.

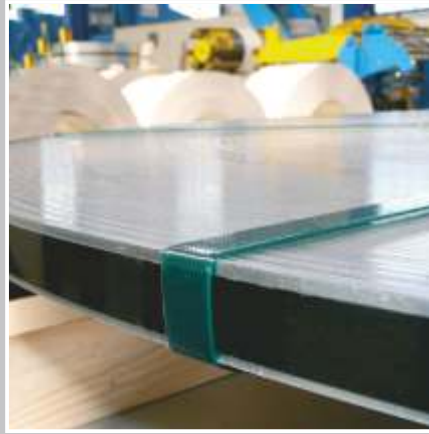

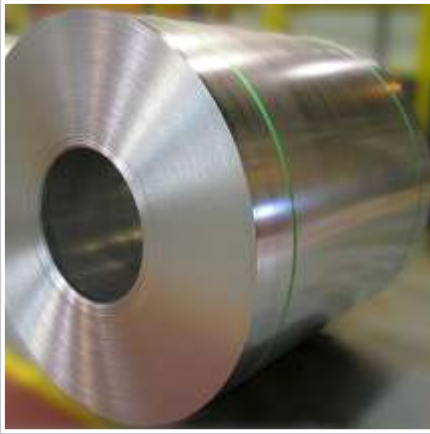

STARstrap™-plus - protects your goods during transportation - no corner protectors required.

Common steel strapping with edge protection

STARstrap™-plus - the new generation - often requires no edge protection
