

Hand- out STARstrap Eco-S (new)

What is STARstrap Eco-S?

- **STARstrap Eco-S** is a new type of strap
- **STARstrap Eco-S** has a special embossed surface
- **STARstrap Eco-S** has less weight but nearly the same break load and seal efficiency in comparison to the same standard dimensions
- **STARstrap Eco-S** is available in following dimensions:

Quality	Dimension (mm)	Coil length (m)	Colour	Surface	Break load (kg)	Break load (N)	Weight (g/m)
STARstrap Eco-S	12,0 x 0,6	2.500	green	Special embossed	270	2.700	7,0
STARstrap Eco-S	12,0 x 0,7	2.500	green	Special embossed	300	2.950	8,0
STARstrap Eco-S	12,5 x 0,6	2.500	green	Special embossed	290	2.850	7,7
STARstrap Eco-S	12,5 x 0,68	2.000	green	Special embossed	330	3.250	8,6
STARstrap Eco-S	12,5 x 0,7	2.000	green	Special embossed	350	3.450	9,3
STARstrap Eco-S	15,5 x 0,6	2.100	green	Special embossed	380	3.700	10,0
STARstrap Eco-S	15,5 x 0,7	1.800	green	Special embossed	440	4.300	11,8
STARstrap Eco-S	15,5 x 0,85	1.400	green	Special embossed	520	5.100	13,4
STARstrap Eco-S	15,5 x 0,9	1.400	green	Special embossed	550	5.400	14,6
STARstrap Eco-S	16,0 x 1,0	1.300	green	Special embossed	640	6.300	16,5
STARstrap Eco-S	19,0 x 0,8	1.200	green	Special embossed	660	6.500	17,5
STARstrap Eco-S	19,0 x 1,0	1.000	green	Special embossed	760	7.500	19,8

Due to container loading coil length can vary.

Advantages of STARstrap Eco-S

- **Eco**nomical (better price - cost savings for customer) and ecological (lower weight/ less material)
- Manufactured with latest technology
- Special embossing – excellent **S**eal efficiency
- Higher corner break values
- Less weight - but achieves the same break load values as our standard STARstrap embossed versions of the same dimension
- Suitable to manual as well as machine applications
- Our solution against low price competitors

Other important arguments (Our mission for resource efficiency)

- **STARstrap Eco-S** is made with 100% recycled material and produced with less energy - fulfil customer's requirements for sustainable and ecological products
- **STARstrap Eco-S** is 100% recyclable
- Less weight - less waste – less disposal costs
- Less weight – lower transport costs and reduced CO2- output
- Less weight of **STARstrap Eco-S** avoids higher costs due to waste regulations in various countries
- Lighter coils – easier, better and safer handling (in accordance with various health & safety requirements and standards)
